She she was mjured, but was forced to give up her place and has been to heavy expense for doctors to treat her injuries. She places the total damages at \$10,000.

Beautiful mountains, rivers, valleys, lakes and plains follow each other in rapid succession to delight the tourists who will also find interest in the agricultural, mining, lumbering, industrial and other interests associated with the development of the great northwest.

The crowning glory of the trip through the northwest, however, is the visit to Yellowstone Park, the land of hot springs, geysers and gorgeous canone, and to Alaska, with its endless ocean channels, snowcapped peaks, Indian villages and giant glaciers.

> vertising Purposes,

Since DR. S. CLAY TODD has been acknowledged by all to be so successful in the treatment of Catarrab, Nervous Debility, Impotency, Rheumatism, and all nervous and other chronic diseases, dozens of would-be specialists have tried to locate in Grand Rapids.

some of them had, or thought they had, means of their own that the pubhe would grasp at as a means of relief, others have been agents of some other "Cure," but all have been judged for what they were worth, which was nothing but a "catch-penny dodge," to get the people's money, when they were really looking for DR. S. CLAY

They thought from the amount of advertising being done by DR. S. CLAY TODD, that there was a great amount of business in Grand Rapids, but on coming here they found themselves mistaken, as the field was all occupied, as DR. S. CLAY TODD was doing the work, and the people were not looking for outside help, consequently, they squirmed around and resorted to all sorts of subterfuges and finally left Grand Rapids in disgust, most of them being in debt to the newspapers and others who had tried to help them in advancing their schemes.
